makdaf1rst.github.io/e-portfolio/

### Professional Summary

An ambitious and results-oriented frontend software engineer with hands-on experience creating responsive, visually polished websites and e-commerce platforms. Proficient in modern frontend stacks and passionate about clean, scalable code and high-performance design.

### Projects

#### Responsive HTML/CSS Homepage

 <https://makdaf1rst.github.io/final-html-css-project/>

- Built a fully responsive website from scratch using semantic HTML5 and advanced CSS layout techniques including Flexbox and Grid
- Applied mobile-first principles and accessibility best practices
- Deployed using GitHub Pages with custom favicon and design assets

#### Personal Developer Portfolio

 <https://makdaf1rst.github.io/e-portfolio/>

- Designed and developed a portfolio site showcasing skills, resume, and personal projects using HTML, CSS, and JavaScript
- Implemented animated interactions and styled components for a modern UI/UX experience
- Optimized for SEO, performance, and responsive viewing across devices

#### E-Commerce Product Page

 <https://makdaf1rst.github.io/e-commerce/>

- Developed a static e-commerce frontend featuring product listings, categories, and a cart interface
- Applied modular CSS and structured JavaScript for interaction (e.g., dynamic product quantity)
- Focused on layout integrity, consistency, and pixel-perfect design

## Technical Skills

Proficient: HTML5, CSS3, JavaScript ES6+, Responsive Design, Git, GitHub Pages, React, TypeScript, Node.js, Figma, Accessibility (WCAG), SEO

## Education

Self-Taught Frontend Engineer

- Continuously learning via project-based work, documentation, and modern course material (FrontendMentor, MDN, YouTube tutorials)
- Actively improving design systems understanding and frontend architecture patterns
